UNIVERSAL CONVERTERS

99000 Single Sensor

The new 99000 series differ from other catalytic converters in that they feature significantly larger catalyst volume and greater concentrations of catalytically active materials. Designed for GM passenger cars

IN/OUT	PART #
2"	99334HM
2.25"	99335HM
2.5"	99336HM

APPLICATION COVERAGE		
FUNCTION	ENGINE LIMIT	TEST WEIGHT
OBD-II	6.2L	6,375 lbs.

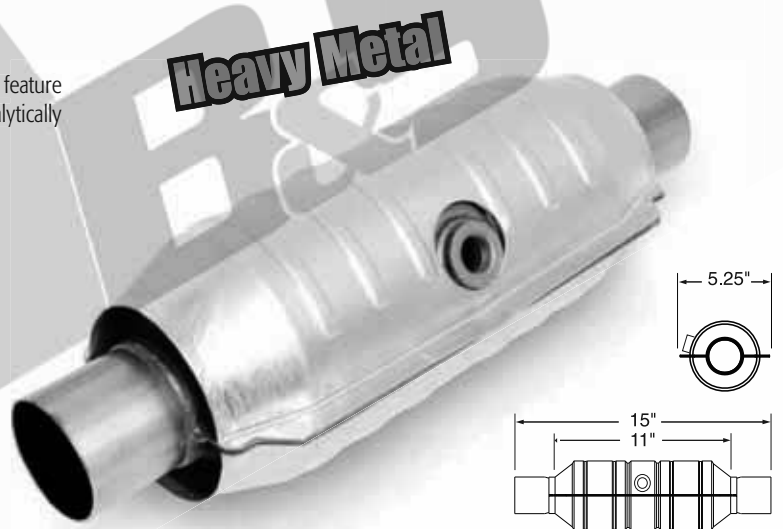

99000 Midbed Sensor

The new 99000 series differ from other catalytic converters in that they feature significantly larger catalyst volume and greater concentrations of catalytically active materials. Designed for all Hondas, including Odyssey.

IN/OUT	PART #
1.75"	99353HM
2"	99354HM
2.25"	99355HM
2.5"	99356HM

APPLICATION COVERAGE		
FUNCTION	ENGINE LIMIT	TEST WEIGHT
OBDII	6.2L	6,000 lbs.

99000 Angled/Offset Spun Ceramic

The new 99000 series differ from other catalytic converters in that they feature significantly larger catalyst volume and greater concentrations of catalytically active materials. This 99000 series part has a larger 5" diameter housing.

IN/OUT	PART #
2.25"	99675HM

APPLICATION COVERAGE		
FUNCTION	ENGINE LIMIT	TEST WEIGHT
OBDII	6.2L	6,000 lbs.

Y-Pipe Transitions

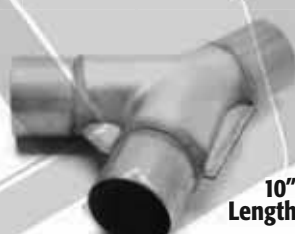

MagnaFlow's stamped Y-Pipe transitions are ideal if you're looking to design your exhaust for a single inlet, dual outlet set up. Made of stainless steel, these Y-Pipes offer a gentler radius that allows for better balance between cylinder banks and consistent flow in tight constrained areas.

Available in several diameters and configurations including the regular Y, 90° inlet, and giant 4", our Y-Pipe transitions are also backed by a lifetime warranty.

X & U-Pipe Transitions

MagnaFlow's stamped X- and U-Pipe kits incorporate a gentler inner radius that allows for better exhaust scavenging, noise cancellation and better balance between cylinder banks. With this design, power is increased while decibel levels are decreased.

Our X-Pipe transitions are available in 2.25" to 3" inlet/outlet diameters and can be found in many of our cat-back systems, or sold individually for those looking to complete their one-off system.

MagnaFlow's stainless steel Tru-X crossover pipe represents a significant leap forward in technology over traditional H-Pipes. The more gentle radius allows for better exhaust gas scavenging, noise cancellation.

U-Pipe Transition

MagnaFlow's U-Pipe transitions were designed to allow larger diameter tubing to be used in confined spaces. Where regular U-bends would be restricted to smaller diameter tubing, MagnaFlow's U-Pipe transitions use a larger radius that allows optimal flow throughout the exhaust system.

Smooth Transitions

ALL WELDED
LIFETIME WARRANTY
BUILT TO LAST
100% STAINLESS STEEL

MagnaFlow's smooth transition pipes are ideal for those piecing together a custom exhaust system. With four variations available, including our 3-in-1 pipe, 180° bend, 90° bend and 45° bend pipe, and is available in 2.25", 2.5"

and 3" diameters, these smooth transition pipes are exactly what you've been looking for. All you need to do is cut the desired section and add it to your system.

VGX

Friction Solutions FOR EVERY BRAKING NEED

VGX PLATINUM SERIES CERAMIC KIT

- new premium ceramic formulation
- patented noise silencer shim
- reduces black dust
- advanced fade free friction
- maximum stopping power
- consistent braking performance
- absolute customer satisfaction
- over 116 part numbers available

VGX STEALTH SEMI-MET KIT

- hardware included
- superior braking
- low dusting
- enhanced performance and quiet stops
- longer life without fade at high temperatures
- over 400 part numbers available

MADE IN NORTH AMERICA

100% SHIMMED PATENTED
FAST HEAT TRANSFER TECHNOLOGY
PREMIUM PERFORMANCE FOR GREATER WEARABILITY
ANGLED SLOTS AND CHAMFERED TO MEET OR SURPASS OE

TruStar

TRUSTAR FRICTION

- Complete line - Semi-Metallic, Ceramic and Severe Duty
- Excellent quality
- Competitive pricing

MADE IN NORTH AMERICA

TRUSTAR DRUMS & ROTORS
